

Creating a Problem Tree

Draw a tree, turning the problem in the trunk, the causes of the problem into roots, and the effects of the problem into leaves!

Effects
What are the effects of this problem?

Problem
What is the main problem?

Causes
What are the 'root causes' of this problem?

How can I solve this problem? Knowing how much time, money, or other constraints you may have, which 'root cause' of the problem can you address? Circle it.
