

Request for Proposal for a **Graphic Designer** for the “Fund for Innovation and Transformation/Fonds pour l’innovation et la transformation or FIT”.

About the organization and project

The Inter-Council Network (ICN) is a coalition of the eight Provincial and Regional Councils for International Cooperation. These independent member-based Councils are committed to global social justice and social change, and represent nearly 350 diverse civil society organizations (CSOs) from across Canada. The ICN provides a national forum in which the Councils collaborate for improved effectiveness and identify common priorities for collective action. Rooted in communities across Canada, ICN members are leaders in public engagement at a local and regional level, and are recognized for bringing regional knowledge and priorities to the national level.

As part of the ICN, the Manitoba Council for International Cooperation (MCIC) supports, connects, and amplifies the work of its members and partners, directly engaging and collaborating with Manitobans for global sustainability. As a coordinating structure, MCIC promotes public awareness of international issues, fosters member interaction, and administers funds for international development.

MCIC, on behalf of the ICN, is now launching an innovation initiative named **FIT - Fund for Innovation and Transformation/le Fonds pour l’innovation et la transformation**, to test innovative solutions to development challenges. Its purpose is to advance the effective use of and learn from innovative solutions that will improve the lives, equality and empowerment of women and girls, their families and communities in the Global South.

Request

MCIC invites proposals from Graphic Designers from across Canada.
